INVITATION TO BID

Sweetwater County Solid Waste Disposal District #2 (SCSWDD#2) is soliciting bids for the construction of a new lined landfill and leachate pond improvements at the existing landfill near Wamsutter, Wyoming.

1. The SCSWDD#2 landfill is located approximately 3 miles south of the Town of Wamsutter on Crooks Gap Road (Sweetwater County Road 23). The landfill address is 265 Crooks Gap Road. The landfill is owned and operated by SCSWDD#2 (Owner).

2. Work under this contract is expected to be completed by the end of October 2017. The project consists of constructing a new lined landfill, leachate discharge system and leachate pond improvements. The new lined landfill will consist of excavating the landfill area and constructing embankments with most of the excavation material being stockpiled on site. Within the excavation a double liner with leachate collection system will be installed. The double liner consists of a GCL overlain with 60-mil HDPE. The leachate collection system will pump into a leachate discharge system which consists of manholes and gravity piping that flows into the leachate ponds. The leachate ponds currently contain a 60 mil HDPE liner. A leachate detection sump will be added to each existing leachate pond and a new 60 mil HDPE liner will be placed over the existing liner with new sumps. A more detailed description of the Work is presented in Section 01010, Summary of Work.

Copies of the bid documents can be obtained by contacting Pilch Engineering - Thomas J. Pilch, P.E., P.G. or Jason Ditton, E.I.T. at the information listed below. Hard copies will require a \$150 payment. Electronic Copies can also be submitted at no charge.

3. There will be continued landfill operations occurring during construction, and the Contractor is expected to coordinate fully with on-site landfill managers. The work area is separate from the existing landfill operations, but sequencing of construction activities will be required to allow the landfill to continue operating in the existing landfill until the new cell is approved by the DEQ. Contractor is required to completely understand and comply with the requirements presented in Section 01041, Coordination of Work.

4. A general construction start date of May-June 2017 is anticipated, but will depend on contracting agreement and weather.

5. Complete and include the following information with bid:

- a. Bid Form
- b. Bid Schedule
- c. Force Account Labor Rate Schedule
- d. Force Account Equipment Rate Schedule
- e. Contractor, subcontractors and liner manufacture/installer qualifications.
- f. List of Subcontractors
- g. List of Equipment
- h. Bid Bond
- i. Preliminary Construction Schedule in accordance with Section 01310.

6. Bid is on the basis of unit and lump sum prices. Segregated bids will not be considered. Bid is to be itemized as shown on the Bid Schedule. Entire bid or any portion of bid is subject to negotiation at the OWNER'S discretion prior to final acceptance.

7. A mandatory pre-bid conference will be held at the site on April 13th at 10:00 AM. Other than questions asked at the pre-bid, all questions relating to the bid shall be submitted in writing to Thomas J. Pilch at the address/email listed below. Answers will be submitted to all bidders as an addendum that must be acknowledged on the Bid Form.

8. Bids are due at the SCSWDD#2 Landfill Operations Office at PO Box 88 Bairoil, WY 82322; Attn: Sue Rigano, by April 27th at 10:00 AM. Physical address is 509 Indian Paint Brush Ave., Bairoil, Wyoming 82322

9. OWNER reserves the right to reject bids. Bids received and read by OWNER may not be withdrawn and are considered valid for 35 days after being received.

10. ENGINEERS for this project are

a. Thomas Pilch, PE, PG, or Jason Ditton, EIT
